

# Getting Clariti Email with Mozilla Thunderbird

---

This guide will show you how to set up your Email Account to work with Mozilla Thunderbird. Please be sure that you have an account set up with Clariti Media before proceeding. If you do not have an account created, please contact our Support Staff at (276)431-7203.

**Note:** You may have spoken with a Clariti Technician about setting up an email account after your internet connection was made active.

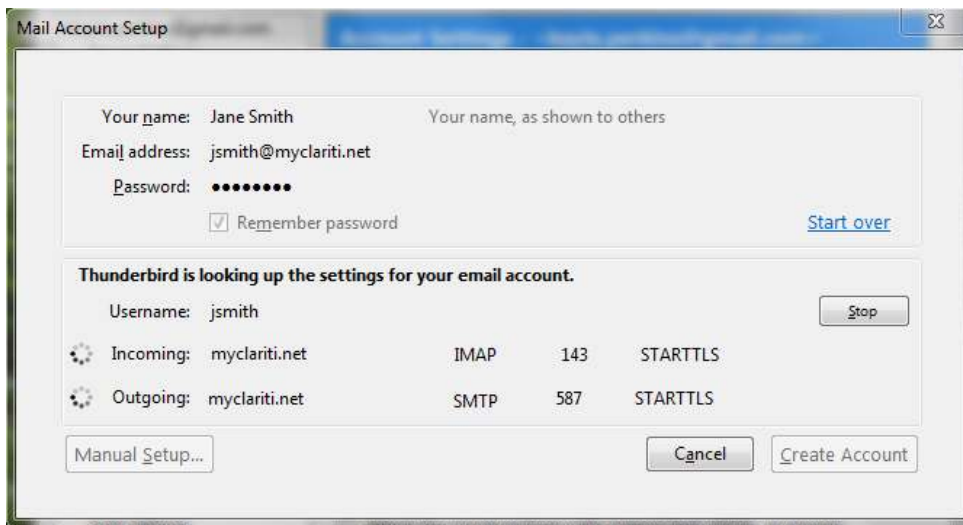

- You can get Thunderbird at: <http://www.mozillamessaging.com/en-US/thunderbird/>
- **Download** and **Install**
- Once you have installed Thunderbird, open the program and go to **Tools** and **Account Settings...**:

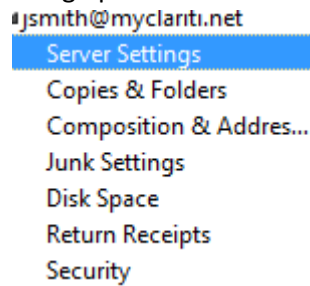

- Click **Account Actions** and Select **Add Mail Account...**

- You'll get a window that asks for **Your Name**, **Email Address**, and **Password**. Enter the correct information and click **Continue**.
- You should be at the Mail Account Setup. Hit the **Stop** Button and then select **Manual Setup...**

- This will bring up the Account Settings page. Select **Server Settings** from the list on the left:

- You will find **Sever Settings** on the right. For **Server Name** enter: **mail.myclariti.net**, set the **Port:** to **110**. For the **User Name:** put your full email address (i.e. jsmith@myclariti.net). Make sure the **Connection security:** is set to **None**. The correct settings are shown in the picture below.

**Server Settings**

Server Type: POP Mail Server

Server Name: mail.myclariti.net Port: 110 Default: 110

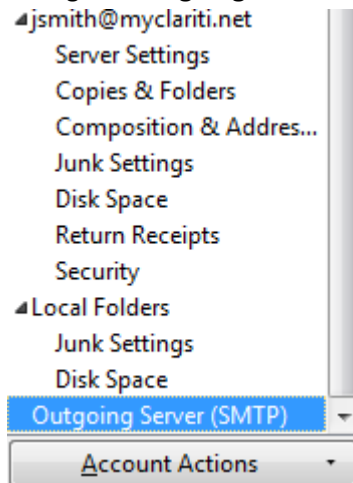

User Name: jsmith@myclariti.net

Security Settings

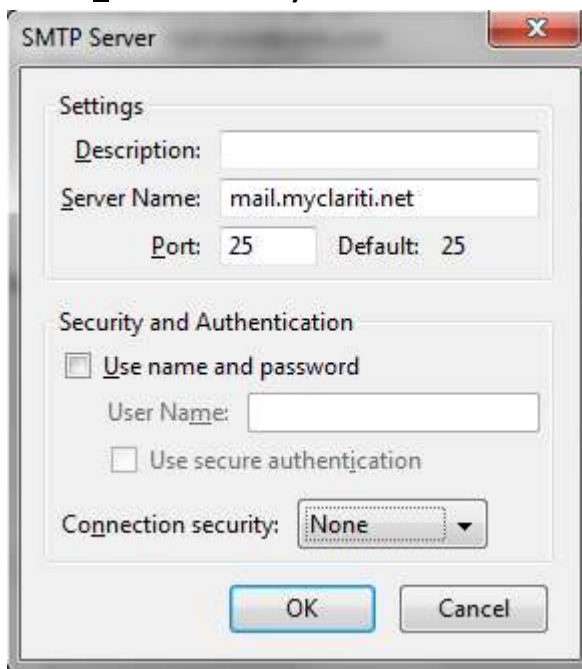

Connection security: None

Use secure authentication

- Next go to **Outgoing Server** from the list on the left.

- This will bring up a page for you to enter your outgoing server settings. For **Server Name:** enter **mail.myclariti.net** and make sure the **Port:** is set to **25**. No boxes should be checked and make sure **Connection security:** is set to **None**.

The image shows a dialog box titled "SMTP Server" with a close button (X) in the top right corner. The dialog is divided into two sections: "Settings" and "Security and Authentication".

**Settings:**

- Description: [Empty text box]
- Server Name: mail.myclariti.net
- Port: 25 Default: 25

**Security and Authentication:**

- Use name and password
- User Name: [Empty text box]
- Use secure authentication
- Connection security: None (dropdown menu)

At the bottom of the dialog are two buttons: "OK" and "Cancel".

- Click **OK** to close the SMTP Server window. Click **OK** to close the Account Settings window.
- Hit **Get Mail** to start sending and receiving your email.
